Spreading our wings in other parts of the world

Thanks to the constant encouragement of all our supporters worldwide, today PPES is registered in the US. Through even further efforts, we are now aiming to make our presence felt in other countries as well.

The U.K. Advisory Group, ‘BETI - Bringing Education To India’, is headed by Mr. Krishan Kumar Mehra.

Our Canada Advisory Group under the name of ‘Positive and Progressive Educational Support’, Canada (PPES, Canada Chapter) which is yet to be registered has been initiated by Ruchi & Vinod Gera.

Message from the Founder

The Pardada Pardadi Educational Society is now 16 years old. In these 16 years we have expanded from a small school with only a few students, to a blossoming community that includes not only a school system, but also many community members that are benefitting from our various initiatives.

By incorporating Education, Health & Hygiene, Community Development, and Economic Empowerment to achieve holistic rural growth, PPES strives to assist the girls, women, and communities of Anupshahr in becoming more active members of society.

Over 1350 girls from 65 villages are now in our education program. In addition, over 3,000 women are participating in 260 Self Help Groups. Pardada Pardadi’s skill- building projects are thriving, providing dignified employment to hundreds of girls and women. These are some of the milestones we achieved over this past year.

I speak for each of our students, teachers, administrators, and volunteers when I extend our most sincere thanks to each of you who have supported PPES through this period of exceptional growth. We are excited about the future of our girls, women, and community members, and we hope that you will continue to support our organization in the future.

Virendra (Sam) Singh
Rays of Hope

Every girl and every woman is a ray of hope;
They are torch bearers of change;
They are the light in, areas of darkness;
They are the oasis in a desert;
They are a cold breeze in hot weather;
They are the change makers.
They are the rays of hope.

To celebrate these rays of hope, PPES has put their pictures at the entrance of the organisation. These pictures also narrate the stories of these people. According to Alka from the economic empowerment wing, "I am the only earning member of my family. Which is both a boon and a bane. My father does not want me to study further. But, since I am economically independent, I have taken the necessary steps to complete my graduation. Now I can take the right decisions for my life!"

There are many stories like these, of the unsung heroines, who are the true role models. Currently we have more than 1300 girls in the school. One hundred and twenty women and girls are working in the economic empowerment wing. Three thousand women are part of the community development programme. And there are many more who are associated with the toilet project, the solar lantern project, etc. All these women/girls are creating a silent revolution in the villages of Anoopshahr. There are many who are stepping out of their physical and social boundaries in order to carve out better lives for themselves and their families.

For the first time this year, PPES has extended support to the sons of PPES women members. They have been placed with Maruti, Schneider, IFB and TAML. In order to create a gender-just society, men/boys also need to be given the right orientation/training. We organised many trainings for men and women on agriculture and dairy best practices as well.

A health centre called 'PRANA' is a new addition to the health vertical and it is providing curative and preventive health services to the PPES community. The foundation stone for the New look Production Centre was also laid in the year 2015/2016.

We remain indebted to the entire PPES family for their tireless work. PPES will always be thankful to its team, volunteers, supporters and donors for being a part of the 16 year journey and our work with girls and women.

Renuka
Educating the girl child has always been at the top of PPES’ vision. For this, we manage four schools with girls ranging from pre-primary to 12th standard. These include two primary schools, Satya Bharti Anupshahr and Satya Bharti Bichola, from Class 1 to Class 5 run by the Bharti Foundation with PPES as the managing partner.

This year too, we gave priority to our free-of-cost, holistic education for our girls from the most marginalised communities of Anupshahr, Uttar Pradesh. By the end of the academic year in March 2016, we had expanded the reach of our education programme to over 1350 girls from 65 villages. Personality development classes for the girls that focus on a 360-degree social and psychological development of our girls are a very important part of our education programme. Public speaking, learning and discussing about universal rights, social issues and related workshops and assignments helped inculcate a sense of ownership, responsibility, and confidence in our senior girls.

**Academic Results & Higher Studies**

The senior girls once again made PPES extremely proud with the board results being maintained at a 100% pass rate. All the girls who appeared passed with flying colours. Out of 62 10th graders, 49 cleared with 1st division and 13 with 2nd division. Among the 29 12th graders, 28 cleared with 1st division and 1 with 2nd division. Academic results for 2015-2016 were released in April and majority of the children were promoted to the next level with flying colors.

Two of our girls were selected to be a part of Dr. Reddy’s lab’s “Earn as you Learn” initiative, which is a two-year programme that would enable them to pursue a degree course and simultaneously earn a yearly stipend of Rs. 1,20,000. In addition to this, Mr. Ganesh from Jai Shivshakti Health and Educational Foundation, Bangalore visited the school in May 2015 and interacted with the girls aspiring for graduation courses. With their help in education loan processing, PPES was able to send nearly 22 girls for different graduate courses.

**Additional efforts for enhancing the academic experience of students**

**Trainings of Staff Members:** The Junior School had training sessions conducted by Dr. Gurdeep Singh, an academician from Delhi. He visited the school every month and observed classroom interactions and gave feedback to the teachers. He also conducted sessions according to the needs of the teachers. The Senior School teachers have been trained on imbibing value-based education in every day interactions in the classrooms which would eventually be followed by a value-based curriculum developed by teachers guided by learned academicians.

**Career Counselling:** In November, Etasha, an organisation working with youth from disadvantaged sections of the society, conducted a career counselling workshop with our senior students. They made the students aware of various possible career opportunities and the skills required for each of them. They also
conducted workshops and activities aimed at identifying students' strengths and areas of improvement for career planning. Counselling sessions for students of class 12th and their parents were organised in January 2016 to help them explore various career options and prepare for higher studies accordingly.

The Annual Day celebration on 14th January 2016: It was a beautiful event all executed by our talented students, graced by Mr. Mathew Cherian, CEO, HelpAge India, as the chief guest. He was delighted at the dance performance, songs, plays and a unique fashion show by our KG students. Students with 100% attendance were recognized and staff members (teachers, administrators and helping staff) were rewarded for their exceptional service.

Preparing senior girls for higher studies: 12th graders, aspiring for graduation courses, were enrolled in a three months Personality Development and English speaking class, conducted by our teachers and volunteers. The classes focused on developing confidence, knowledge and communication skills of the girls so that they are prepared for pursuing higher studies and are at par with their future classmates from other parts of the country.

Trips and visits to enhance student learning

Trip to Science Museum, New Delhi: Class 5 girls from Satya Bharti School were taken on a day trip to the Science Museum in New Delhi. Exploring the subject in a more practical, hands-on manner was a wonderful experience for them and also helped them understand certain concepts better.

Visit to the Atomic Power Plant, Narora: Students from class 10th and 11th visited the Atomic Power station in Narora, in April 2015 to learn about it.

Learning Visit to The Heritage School: A group of teachers from PPES with the Principal of the senior school went for a learning visit to the Heritage School, Gurgaon for a week. Ms. Kaye Jacob, Principal of Heritage School, and her team extended a wonderful opportunity and hospitality to our teachers.

Cultural and Co-currucular Activities

Ganga Aarti: In the last week of April 2015, PPES girls performed the famous ‘Ganga Aarti’ on the ghats of the holy river thus breaking the gender stereotype of this ritual being performed only by males. The initiative also aims at challenging the practice of preventing girls and women from participating in religious proceedings during menstruation. This ritual was again performed 8 months later in December 2015 and this time was graced by Swami Ishwarananda and his disciples from Yogoda Satsanga Society.

International Yoga Day at PPES: 50 students participated in the Yoga day celebrations organised in New Delhi on the occasion and became a part of the campaign run by the government of India to spread awareness about the benefits of Yoga. The students at the school also practiced Yoga with the help Saudamini Chandra, a professional Yoga trainer and a PPES supporter.
Dada-Dadi (Grandparents’ Day): The Indian culture believes that Grandparents are the roots of any child as they teach them values and principles and help them blossom into more well-rounded individuals in adulthood. Hence, they are very important family members who influence life decisions. To honor the relevance they hold for PPES girls, Grandparents’ day was celebrated in the school in June 2015. The grandparents of our students in senior classes were invited and updated on how well their granddaughters were doing and many of them pledged that they would support them in going for higher education.

Quiz competition: NABARD bank conducted a quiz competition in the school in which the students participated and engaged in learning the basics of financial literacy.

Video projects: Students made interesting videos on social issues as a part of the Adobe Youth Voices Programme.

Festivals: The school celebrated various festivals like Eid, Independence Day, Diwali, Christmas, and New Years.

Staff retreat at Panchkula, Chandigarh: Anupshahr team comprising of teachers, administrative staff and volunteers went for a three-day tour to Panchkula, Chandigarh in end of May. This was a welcome break for our teachers.

Youth Festival: A Youth festival was held in the school from 1st to 3rd September 2015 to create a platform for our senior girls and students from other schools to come together and engage in a series of activities like drama, dance, debate, mono acting and sports.

Classical Dance at IIT, Roorkee: A team of students from classes 8th and 9th attended the 1st Winter National Convention by SPICMACAY, at IIT, Roorkee. They had the opportunity to listen to the celebrated masters of the music fraternity and learnt the basics of Bharatnatyam and Kathak in the convention and also presented it in the school assembly after coming back.

Sports for Exposure & Personality Development: Regular sports are given great importance and form a key part of our girls’ lives at the school. Kho-kho, football, basketball, and badminton are among the girls’ favourite sports. Two of our girls participated in an inter-school football competition in Mirjapur in September 2015.

A three-day sports event was held in November for students from class 6th to 12th. It included different sports like cricket, badminton, kho-kho, javelin throw, long jump, kabaddi, and various running competitions. Senior and junior kho-kho teams won first position at district level in Bugrashi and at State level in Aligarh. The badminton and the basketball teams participated in matches in Debai and Kanpur respectively and performed very well. The scout guide team secured first position at district level competition at Amar Singh Inter College, Lakhaveti. They also went to Simbhabali for 26th rally competition. A running competition was held for the children in Madargate village. Mr. Khushbinder Singh graced the event as our Chief Guest and distributed prizes to the winners.
A sports event was organised by the school in Khushalgarh village in which 70 children, including many PPES students participated and the winners were rewarded. A similar running event was organised in village Bahpura. Manu, Reetu, and Priyanka, students from PPES, won different races and prizes.

A running competition was also organised in Manapur village to spread awareness about girls and women empowerment. The event got an overwhelming response where hundreds of women turned up. Mr. Khusvinder Sarna, an excellent basketball player and coach to our girls, led this event. Under his training, our basketball team is going places and taking part in tournaments all around Anupshahr. They also visited Noida to be a part of a training campaign.

Six students participated in an inter-school sports competition. Priyanka, a student of class 8th of Pardada Pardadi, won the bronze and a cash prize of Rs. 2100 in the 1500-metre race. Priyanka not only made us proud with her achievements by also showed an exceptional spirit of giving by paying the registration fee for 5 other girls with the cash prize she won.

Community Outreach and Action Learning by PPES Girls

Awareness campaigns for promoting girls education: In a lot of ways, PPES girls are agents of change in their community. They act as mobilisers to spread the vision of Pardada Pardadi through a series of rallies, marathons, and campaigns for girls’ education in Anupshahr, Laxmpur, Badhpura, Veerpur, and Pagoona villages. Our girls also performed street plays on the theme of Save the Girl Child, Beti Bachao Beti Padhao, and against female foeticide.

Missing Girl Campaign: #Every8Minutes campaign launched by iPartner India and #Missingirls on the issue of Child-Trafficking was taken forward by the Pardada Pardadi girls and a team of teachers in two villages. They addressed crowds of over 250 community members on the issue of gender based violence and girls being forced into trafficking all over the country. It was made engaging through a thought-provoking play by our students and silhouette painting on the prominent walls in the village.

PPES and The Other Side

Melanie Closs, a long-time friend of PPES visited the school in April 2015 and conducted interesting drama exchange classes between our students and students in the USA. She continued working towards facilitating interactions between our girls and the ones in the US schools through her organisation ‘The Other Side’ thus promoting cross border friendships between girls. She again visited PPES in March 2016 and facilitated exchange classes over Skype between our girls and students in the USA of their age. She also worked extensively for free expression through theatre, music, and drama. Throughout the year she had continuous engagement with us and our girls.
Economic Empowerment

The economic empowerment wing of PPES which aims at creating gainful employment for women and girls in Anupshahr while also contributing to the economic sustainability of PPES’s various programmes for rural development was developed into a social enterprise named I Village in 2015.

I Village was established with a vision of offering high quality products in a socially responsible manner. By generating employment for rural women, it empowers them socially and financially. These empowered women also contribute to the general upliftment of the society.

Textile Unit

Handcrafted products are the mainstay of I Village’s social enterprise initiative. Women from villages are trained in traditional hand and machine based manufacturing processes, with special emphasis on embroidery. They manufacture soft furnishing, home decor, clothing, and corporate gifts that have a distinct ethnic touch. These products are designed at our Delhi Office and manufactured at our facilities in the village.

Suit Cover Unit

With a production capacity of 24,000 pieces per month, this unit is currently running at 67% capacity. The suit cover unit caters to our long-time client Blackberry apparel and a new client Louis Philippe.

With stringent quality norms, we have a team of women from Anupshahr trained in cutting, sewing as well as screen printing. The unit is a successful employment generation initiative for semi-skilled rural women in Anupshahr.

Agarbatti (Incense Sticks) Making Unit

The unit has a capacity of 10,000 incense sticks per day, which we intend to double in the coming months. Unskilled women and girls who come from highly impoverished rural communities are provided training and work in the unit which helps them to earn a living without having to relocate.

Other Highlights:

- The Economic Empowerment Wing employees 120 women.
- The textile unit made a sale of over 59 lakh rupees in the past year.
- I Village has an online presence on 4 e-commerce portals - Snapdeal, Pepper Fry, Amazon, and Flipkart.
On January 15, the foundation stone was laid for the NEW LOOK Production Centre for Women, in partnership with PPES and with support from iPartner India. The foundation stone was laid by Mr. Anders Kristiansen, CEO, New Look. The creation of the new production centre will enable us to expand our vocational training cum employment unit to reach out to more women and girls from rural villages. You can support I Village by shopping at: www.ivillagefamily.in

PPES extends its heartfelt thanks to Mr. Anders from New Look and Ms. Bina and Ms. Sumitra from iPartner India for this huge support!

Exhibitions displaying the beautiful products created by our women were organised at following locations and received a great response:

- American Embassy School, Delhi
- Dastkar, Delhi
- Blind Relief Association, Delhi
- Silp Uttsav, Noida
- National Textile Corporation, Delhi
- CRISAL, Gurgaon
- HSCB Gurgaon
- Citi Bank, Mumbai
- JP Morgan Santa Cruz, Mumbai
- Standard Chartered Bank Delhi
- Austrian Embassy, Delhi
- Denthu Network, Gurgaon
- Heritage School, Gurgaon
- Mangolias, Gurgaon
- W Pratikasha Hospital

Orders from the following were received and delivered during the past year:

- HSBC, Gurgaon
- Fair & Lovely Foundation, Mumbai
- Axis Bank Foundation, Mumbai
- I Partner India
- Indian Development Foundation of Overseas India
- Handicrafts and Handlooms Exports Corporation of India
- The Cottage Emporium, Delhi
- Consortium for Educational Communication, Delhi
- Aura Furnishing, Noida
- Comfy, Ahmadabad
- Umeed Social Economic Development, Delhi
- The Ashok Hotel, Chanakpuri, New Delhi
- Centralmart, Mumbai
- Exports: Dumye (https://www.dumye.com/)

---

Economic Empowerment
Self-Help Groups

Begun in 2012 in 25 villages, the women’s self-help group (SHG) programme has expanded to 64 villages by the end of the reporting year.

The project is going strong with 260 SHGs comprising of over 3000 women. A number of activities took place like regular self-help group meetings, awareness camps, collective monetary savings and inter-loaning, sharing and socializing with each other, and discussions on possible microfinance options available.

Bank account openings
With the help of nationalised banks like Punjab National Bank, State Bank of India, Allahabad Bank, and Zila Sehkaari District Cooperative Bank, we have been able to facilitate the opening of bank accounts for 135 SHGs so far. The total savings from all the SHGs went over 60 lakhs in 2015-16 and the total interest earned had been over 6 lakhs.

Milestone! Financial Aid by National Rural Livelihoods Mission (NRLM)
Under NRLM, launched by the Ministry of Rural Development (MoRD), Government of India in June 2011, 28 of our SHGs were aided with Rs. 15,000 each. This money will be used for income generation livelihood initiatives by the SHGs.

Village Development Committees
A new development in the form of creation of 25 Village Development Committees (VDC) took place during this period. The VDC comprises of all the SHG president women who hold regular meetings to discuss the developments related to their villages and talk about the way forward for their SHGs through mutual discussions and sharing.

Soap Project
Benjamin Aaron and Amanda Griffin from Lovin Soap Project, an initiative aimed at empowering women through skill development in developing countries trained a group of our SHG women in soap production.
In Benjamin’s words, “We have taken such workshops for women’s skill building and empowerment in China, Africa and many other places, but this group of women in Anupshahr is by far, the best in terms of creativity, enthusiasm and quality!”
Diary Best Practices

The Dairy Best Practices initiative has been thriving and has expanded its reach from 1055 in the year 2014-2015 to 1437 families in 2015-2016 from 65 villages.

The project aims at spreading awareness on the best dairy practices like fodder management, yard management, breed improvement through artificial insemination (AI), and better healthcare of cattle. This in turn led to improved productivity and thus, increased income for the families.

Our team of Pashu Mitras (animal’s friend) continued spreading awareness among the villagers through training sessions and meetings.

A total of 1584 artificial insemination (AIs) were conducted during the year in collaboration with BAIF Development Research Foundation, taking the total number of AIs since the initiative’s beginning to 4369.

A total of 223 animals were treated for infertility leading to an annual increase of income by Rs. 28,000 per family. An income of over Rs. 62.44 lakhs was created collectively for the communities.

Immunization of 44,000 cattle from 84 villages for FMD (Foot and Mouth Diseases) and 10,000 cattle for HS (Haemorrhagic Septicaemia) with support from governmental veterinary department was accomplished in the year.
Year 2015-16 has been a promising one wherein our dream to bring quality and affordable healthcare to the rural communities took a major step forward in the form of ‘Prana’, the primary healthcare centre in PPES premises in Anupshahr. ‘Prana’ was inaugurated on 8th March 2016 in the presence of Mr. Raymond J. Whalen (member of the U.S. Advisory Group of PPES) and Ms. Peggy Miller. 1487 community members have been treated at the centre since.

**Regular Health Education at Pardada Pardadi Schools**
Girls from Pardada Pardadi Schools availed medical facilities during the weekly checkups conducted by our team of qualified doctors and nurses at PPES. There were some cases of major medical emergency in this period related to neurology, abdominal pain, dog bite, and post-operative care, which were followed up by our team and coordinated for treatment successfully in AIIMS, New Delhi. Weekly health sessions are held by nurses with students on age-appropriate topics and form a part of their learning.

**Community Toilets**
Through the two community toilets in Madargate and Nehruganj, 139 families and thereby nearly 973 individual members continue to benefit every month. These are the villages where members are from the most socially and economically marginalised communities because of the stigma related to their lower caste. The health standards in these villages have improved significantly because of this intervention over the years.

**Individual toilets in our students’ homes**
A total of 96 toilets have been created by PPES since the beginning of the Toilet Project. Construction of a concrete double pit toilet that PPES goes for costs Rs. 25,000. 10% of this amount is raised from the family which gets the toilet constructed in their house. There are still thousands without a hygienic toilet, which results in health problems and safety issues for female members.
UK Fundraiser 2015: On 4th October 2015, our supporters in the UK gathered for a lunch to support the cause of girl child education and to raise funds for our rural development initiatives. The support was overwhelming and we were able to raise a significant amount for our education programmes for girls in the rural villages.

US Gala 2015: The evening of 24th October 2015 at Fairfax USA saw the coming together of many like-minded individuals who were in for a colourful and enjoyable evening while promoting the cause of Pardada Pardadi. The evening included Bollywood dance, raffle, auction of items made by PPES women, and fund raising for education of girls at PPES.

Half-Marathon 2015: On 23rd August 2015, PPES organised the second edition of its half-marathon in association with Run With Me and with Sunday Run Club as the running partner. This is an initiative to spread the message of gender justice and advocate for the rights of the girl child by promoting the right to participate in sports and equal opportunities for them. The marathon was able to attract Ms. Sunita Godara, Ms. Monika Chaudhary, and renowned corporate houses like Coragen – DuPont, BlackBerries, Indian Oil, Pepsi, RJ Corp, Dun & Bradstreet, and Coca Cola as sponsors. The event saw a participation of over 1800 people. Mr. Ram K. Mudholkar, Business Head, South Asia, DuPont Crop Protection, was the chief guest of the event. The best part about the marathon was seeing all the PPES girls running freely and enthusiastically on the road fighting for their rights.

Our stars at PPES with the Indian Mega Star: A group of our girls with Mr. Sam visited Mumbai to be a part of the show ‘Aaj Ki Raat Hai Zindagi’, hosted by mega star Mr. Amitabh Bachchan. The show highlights the stories of prominent social change makers from the country. The show was seen all across the globe, and the performances by our girls and the story of Pardada Pardadi shared by Mr. Sam touched all.

PPES participated in the India Smile Challenge, an opportunity for NGOs to raise funds through corporates, organised by Give India Foundation in October 2015.
Qimpro Award – Role Model Leader
It was a proud day for us when our founder Virendra Sam Singh won Qimpro Gold Standards Award 2015 in the field of education on 19th November 2015. Over the years, Sam's work and efforts have changed lives of many girls and others associated with Pardada Pardadi and it was a great moment for us to see his work being recognised on such a great platform.

PPES becomes a finalist for HCL Citizen’s Grants
In August 2015, HCL invited proposals from across the country for its HCL Citizen’s Grant for supporting sustainable development of rural communities in India. An extensive process involving field visits and due diligence was conducted and PPES made it to the top 6 finalists out of more than 400 proposals that HCL received. It was a great achievement to be one of the top 6 NGOs whose work was showcased in the presence of the Honorable President of India Mr. Pranab Mukharjee on January 18, 2016 at the Shiv Nadar University in Greater Noida. Though we didn’t win the grant, it was an extremely proud moment to share the stage with the President as well as 5 other NGOs doing commendable work.

A beautiful video made by HCL on our work can be viewed at:
https://www.facebook.com/HCLEnterprise/videos/1705632662987706/

Rotary awards Pardada Pardadi
PPES was awarded the ‘Vocational Excellence Award’ under the category ‘Education / Skill Development’ by an eminent Jury. The award has been institutionalised by Rotary International to recognise outstanding, selfless work in the community.

Sam speaks at BNI
Sam, the founder of PPES shared the story of Change and Empowerment of Girls at Pardada Pardadi, as the keynote speaker on 4M, a BNI event held in February in Gurgaon.

"It gives me immense pleasure to let you know that Pardada Pardadi Education Society has been unanimously elected by the panelists as a Changemaker School. In fact, everyone from the panelists, to our global team, as well as some of our existing Changemaker Schools are completely floored by what you guys are doing and are very excited to come visit the school at the earliest."
~ Ashoka Team
“These villages in UP did not educate their girls, one school in Anupshahr changed the trend”

“Delaware-funded Indian girls' school empowers Society's weakest”

“Former Delawarean starts all-girls school in India”

“When rain didn’t dampen spirits of village youth running to transform gender notions”

“Sunshine in Bulandshahr”- PPES's work, its beginning, Sam's journey, the challenges and successes, were covered in 'Business Standard' a business newspaper, on 25th April.

“Real Life Heroes” - On 4th April, Sam spoke on the “Real Life Heroes” radio programme on 92.7 Big FM talking about our work at Pardada Pardadi.
